

# Night Sky Petunias

## Possible Varieties Included

## Description

Hold the universe in your hands! These deep, galactic blue/purple petunias have unique white spots that look like a starry sky. Elegantly paired with white verbena this mix is out of this world. Available in hanging baskets and patio planters.

## Care Instructions

**Light:** Place in a location with at least 5 hours of direct sunlight per day. Morning sun is OK.

**Watering:** When top of the soil is slightly dry to the touch, water well until it runs out the bottom of the basket or container.

**Fertilizing:** The soil is enriched with a slow release fertilizer. However, you may supplement this every two weeks with a balanced fertilizer such as our Flower and Veggie 10-15-19 fertilizer.

**Maintenance:** As the flowers finish blooming, pinch them off to help promote new flowers and fuller growth.

**Temperature:** Place plants outside once temperature is above 10-15
