calibrachoa: blue, red, yellow

Bacopa: blue, white

Ornamental grasses: juncas blue dart

lysimachia: nummularia goldii

Sanvitalia: sunvy super gold

Care Instructions

Light: Place in a location with at least 5 hours of direct sunlight per day. Morning sun is OK.

Watering: When top of the soil is slightly dry to the touch, water well until it runs out the bottom of the basket or container.

Fertilizing: The soil is enriched with a slow release fertilizer. However, you may supplement this every two weeks with a balanced fertilizer such as our Flower and Veggie 10-15-19 fertilizer.

Maintenance: As the flowers finish blooming, pinch them off to help promote new flowers and fuller growth.

Temperature: Place plants outside once temperature is above 10-15
