Echeveria: Perle Von Nurnberg, Miranda Red, Purpusorum, Affins and Pulidonis

Sedum/Sedeveria: Hens and Chicks, Hako Chocokate Ball, Tetractinum Coral Reef and Lemon Angelina

Senecio: Mandraliscae "Blue"

Care Instructions

Light: Choose a location for your succulents that is not in direct sunlight. These plants can be kept outside or inside during the spring and summer, but come the winter make sure they are kept inside.

Water: Clues that a plant needs watering include: shrinking or puckering leaves or normally shiny leaves that appear dull. When the soil is completely dry 2 inches deep, you should water it. Make sure you water is just enough so that it drains through the pot a little bit, it is very easy to over water these plants.

Fertilizer: Fertilize your succulents at least once in the spring and again in the summer. No need to fertilize them in the winter.
