

Spring

THE PERFECT
COMPANION
FOR ANY
HERB AND
VEGETABLE

Marigolds

Marigolds are perfect for the herb and veggie gardener. With a pop of colour and a scent that common pests don't like they are sure to be your favourite addition this year.

When top of the soil is slightly dry to the touch, water well until it runs out the bottom of the basket or container.

Place in a location with at least 5 hours of direct sunlight per day. Morning sun is OK.

Fertilize with a balanced fertilizer such as our Flower and Veggie 10-15-19 fertilizer.

Marigolds prefer well draining soil. To maintain and promote growth, be sure to pinch off any flowers that are finished blooming.

Place outside when temperatures reach about 10° to 15°.
